

# UNIQUE OPPORTUNITY DOUBLE CAPSULE SEMI-TRAILERS

Available for sale or long term hire, these barely used Brimarco built double capsule trailers offer a unique opportunity for your business. The interior and exterior can be customised to your exact needs.

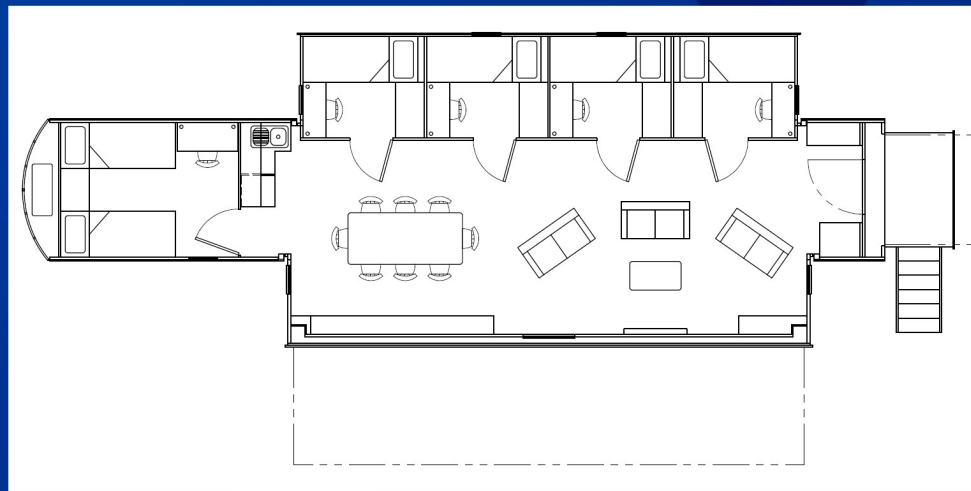

Originally built eight years ago, these trailers have been hardly touched. This makes them a highly competitive option for any prospective owner

The two available trailers are currently fitted out as mobile accommodation vehicles, offering sleeping facilities for up to twelve people. The modern interior fitout includes a spacious common area, kitchenette and more.

What could you do....

- Track day quarters
- Refit as a mobile library
- Mobile learning facility
- Remote work facilities
- Mobile workshop
- Shearing accommodation
- Customised Motorhome
- Mobile medical center

To supply a new trailer such as this there would be a minimum 6-month lead time for the complete construction of a new vehicle and at a far greater cost than this proposal. With this opportunity, you could have a fully serviced, field-ready vehicle in a matter of weeks, for well under half the cost of a new trailer of a similar build, and including a limited manufacturer's warranty.
